Objective:

Detail-oriented Software Developer with a passion for creating innovative web applications. Seeking a position at Innovatech, where I can utilize my skills in front-end development, user experience design, and software engineering to contribute to the company's success.

Highlights of Qualifications:

- Extensive experience in developing responsive web applications using HTML, CSS, JavaScript, and React.
- Proficient in backend development with Node.js and Express.
- Skilled in using version control systems like Git and project management tools like Jira.
- Strong problem-solving abilities and a keen eye for detail.
- Excellent communication skills and a proven track record of collaborating effectively with cross-functional teams.

Technical Skills:

- **Programming Languages:** JavaScript, Python, Ruby
- **Web Development:** HTML, CSS, React, Angular, Node.js, Express
- **Databases:** MySQL, MongoDB, PostgreSQL
- **Tools & Technologies:** Docker, Kubernetes, Git, Jenkins, Jira
- **Cloud Platforms:** AWS, Heroku, Azure
- **Other:** Agile methodologies, Test-Driven Development (TDD), RESTful APIs

Education: Bachelor of Science in Computer Science

University of California, San Francisco - San Francisco, CA
September 2015 - June 2019

- GPA: 3.8/4.0
- Relevant Coursework: Web Development, Data Structures, Algorithms, Database Systems, Cloud Computing

Professional Experience: Front-End Developer

Web Creators Inc., San Francisco, CA
July 2019 - Present

- Developed and maintained front-end components for a high-traffic e-commerce platform using React and Redux.
- Improved site performance and user experience by optimizing CSS and JavaScript code.
- Collaborated with backend developers to integrate APIs and ensure seamless data flow.
- Participated in code reviews and provided mentorship to junior developers.

Software Developer Intern

Tech Innovators, Palo Alto, CA
June 2018 - August 2018

- Assisted in the development of a web-based project management tool using Angular and Node.js.

- Implemented RESTful APIs for data retrieval and storage.
- Conducted unit testing and debugging to ensure the reliability and performance of the application.

Research Assistant

Human-Computer Interaction Lab, UCSF

September 2017 - May 2018

- Conducted research on improving user interaction with web interfaces.
- Developed prototypes and conducted usability testing to gather user feedback.
- Published findings in a peer-reviewed journal and presented at the CHI Conference.

Projects: Personal Portfolio Website

- Designed and developed a personal portfolio website to showcase my projects and skills.
- Used HTML, CSS, JavaScript, and React for the front-end and hosted on GitHub Pages.

E-commerce Website

- Developed a full-stack e-commerce website with user authentication, product listings, and a shopping cart.
- Used React for the front-end and Node.js with Express for the backend, with MongoDB as the database.

Certifications:

- **Certified JavaScript Developer**
- **AWS Certified Developer - Associate**
- **Certified ScrumMaster (CSM)**

Interests:

- Hiking, Photography, Traveling, Reading Tech Blogs, Volunteering at Coding Bootcamps, Playing the Piano
